

2017 RED MOUNTAIN CABERNET SAUVIGNON

The Red Mountain Cabernet Sauvignon is sourced from some very recognizable vineyards, Fidelitas Estate and Quintessence, but certainly shouldn't be confused for either one. Charlie is selecting specific blocks and different clones from each of these sites than what you'd find in either of the vineyard designated wines. Then he follows careful fermentation and barrel aging regimens that make this wine uniquely its own, showcasing bright, juicy fruit. We call this the Cabernet that pleases all palates and showcases great richness and concentration. Drink now through 2028.
